

A highly skilled freelance senior product designer, I work with top UK companies, delivering exceptional digital experiences with a user-centered design approach.

EXPERIENCE

Virgin Atlantic – Freelance Senior Product Designer

Aug 2022 to present

- Delivering a re-designed and improved book flow experience
- Redesign and simplification of main menu navigation
- Leading user experience discovery and research across multiple projects
- User testing and optimisation of new features and concepts
- Developing, maintaining and implementing a pattern library and design system

Sage – Freelance Senior UI / UX Designer

Feb 2022 to Jul 2022

- Setting out a digital strategy and vision for a Security and Privacy Trust Hub
- Competitive benchmarking, organising design workshops; leading persona creation and facilitating user testing
- Leading user research with internal/external stakeholders; collaborating closely with product owners and developers

Publicis Sapient – Freelance Experience Lead

December 2020 to December 2021

- Leading a team of UI and UX designers across multiple time zones
- Advocating research and evidence-based design across various initiatives
- Collaborating closely with key stakeholders, product owners and developers
- Delivering the vision for an e-commerce project for a major automotive company
- Providing creative leadership and mentoring junior members of the team
